No P. 573 dated 29 Jan 1931

Forwards an application from Mr V. Ramalingam proprietor of the Bangalore Daily Press requesting the sale to him of printing machines and type from the Govt Press and states that the required type & machs should be sold at cost price. printing &c.

As regards the sale of ~~machinery~~ the machines, none are immediately available as may be seen from the 2nd para of the Supdt's letter. So Mr Ramalingam may be informed that no printing machines are now available for sale for the present.

As regards the type, the Supdt states that they may be sold at cost price. The may perhaps be approved.

As just

Mr. Ramalingam's requests are:

(1) Some old machinery that is likely to be scrapped may be sold to him

The Supdt: says that this request cannot be complied with until new machinery is sanctioned for the Govt Press.

Mr. Ramalingam may be informed that old machines are not available for sale just at present.

(2) The type # required by him

may be sold to him at cost price the recovery being made in easy monthly instalments.

The Supdt. has not stated the value of the type and how it should be recovered — whether in one lump sum or in instalments.

He may perhaps be asked to ascertain these particulars and forward the same to Govt. with his opinion. He may also inform the applicant that old machinery is not immediately available for sale.

The Daily Post is an old institution of Burgher and its policy and line lately are highly commendable. As per the letter of the Despatcher it is evidently going through very hard times and should I think be given the help it needs, which after all comes only to this that the price of the pieces of machinery not required by the Press and the type at book value which may be given to him may be recovered in easy instalments. The demand is very modest and may

be sanctioned. The Rpd. is ready to spare these machines provided he could get better ones for which he has applied for budget provision. He has said that new machinery is absolutely necessary in the interest of better work and better economy. Viewed as a business proposition the requisite provision in the budget must be made. A profit giving government concern can not be starved.

The proposition is likely to benefit Govt: also as these machines ~~[illegible]~~ if not required by a printer in need of such will fetch only a small price which may not be any way near their value as per books. The prayer of the Proprietor of the Daily Post may be granted.

SIR,

GENERAL SECRETARY
27 JAN. 1933
No. Gen.

I have the honour to forward herewith the application addressed to Government through this office by Mr. V. Ramalingam, Proprietor of the Bangalore Daily Post, requesting the sale to him of some printing machines and type from the Government Press and to state that the required type may be sold to him at cost price.

As regards pinting machines, there are a few old machines which are, however, kept in good working order by timely renewal of worn out parts, etc., which may be disposed of but unless they are replaced by new ones, it is not possible to sell them away. I have submitted a reference to Government in this office letter No: P. 1452, dated 16th instant, soliciting a grant of Rs 25,000/- every year, commencing from the next official year 1933-34, for some years for buying new machinery in renewal of the old ones. If there is any possibility of Government granting my request, I can spare the old machines to Mr. Ramalingam.

Sir,

I beg to state that I am the proprietor of The Bangalore Daily Post, which paper as you know has been serving the state and its people most loyally for over half a century. I took over the paper sometime ago and ever since then owing to keen competition it has not been a success financially. I have lost heavily and have no finances to buy new machinery as the machinery now in use is getting rickety and may break down any time. I want to continue the paper somehow as I consider it to be a disaster if it should shut down, being the only medium to voice the feelings of the people and explain to them the policy of Government.

I crave Government help to enable me to carry out the object I had in view when I purchased the good will of the paper.

There are certain machines, I understand, which are too old for them and are to be scrapped by the Government Press. They will serve my purpose allright till the finances of the press brighten when I shall purchase new machinery. I request that the necessary machinery may be given to me at a reasonable price. The type I require may be ordered to be given to me at cost price. The value of these may be directed to be paid by me by easy monthly instalments.

I earnestly request that early favourable orders be passed in the matter.

For which act of grace I shall ever pray.

I beg to remain,

Sir,

Your most obedient servant,

V. Ramalingam
